◆ FIRE CHIEF ANNOUNCEMENT TO BE MADE

We should find out soon who will be leading the Athens Fire Department. City Manager C. Seth Sumner has called a press conference for 4:30 p.m. today to make an announcement "in regard to the Athens fire chief." Sumner tells The Morning Fax he may name an interim chief or he may name the new chief. He told us on Friday that he has not yet made a decision on which he will name. The current fire chief, Jim Dyer, has resigned. His last day on the job will be this Friday, August 10th. Chief Dyer has accepted a job in the Knoxville area.

National & World News

◆ The U.S. Geological Survey first reported an earthquake in Maryville, TN, last Friday. Then it revised the report, saying the booming and shaking were a result of a rock quarry blast. Now, the USGS has issued another revision saying after further review it has determined it was an earthquake after all.

◆ In Aurora, Colorado, a case of mistaken identity left a man dead after protecting his family from an invader. Police heard gunshots coming from inside the house. Upon entering, they saw the body of the invader on the bathroom floor and assumed he was the victim. Then they saw the homeowner, Richard Black, 73, standing there with a gun and they opened fire, killing him.

◆ UBER RIDING, AMISH SYLE

St. Joseph County, Michigan, is located in Amish country. The Amish do not drive motorized vehicles. But that's no problem for Timothy Hochstedler, who operates an Uber ride-sharing service. Hochstedler's vehicle is a buggy, powered by a one horse "engine." The Amish do not use cell phones, so if you want to ride the Amish Uber buggy you flag him down. For \$5, Hochstedler will deliver you to your destination. (Photo courtesy of newschannel9.com)

at its finest!

Earthworms are some of the cleanest, most helpful creatures in the world! Their excreta (waste) is formed in tiny, ball-shaped, black pellets called castings. Worm humus (manure) is the end-product of the breakdown of organic matter by earthworms, also known as vermicasting. Worm castings last a long time.
